CITY OF STRENGTH #KONOTOP

1. Sports rehabilitation – in a modern rehabilitation and sports complex, veterans will be able to restore physical fitness, strengthen their health and find new motivation.
2. Physical rehabilitation – on the basis of the physiotherapy department, veterans will be able to receive the necessary medical and rehabilitation procedures.
3. Psychological relief – in the relaxation center, combatants and their families will be able to restore psychological balance and internal resources.
4. Perpetuation of memory – a space is being created in the city's Memorial Square to preserve the memory of the fallen Heroes, which will become an important place for the entire community
