

Over 58,000
residents

3 000+ IDPs

74 settlements

An area of 970.4 km²

For remote settlements, transport means access
to employment, education, healthcare, and
administrative services

WHEN TRANSPORT BECOMES A BARRIER ???

Worn-out vehicles,
frequent breakdowns,
and insufficient reliability

Unstable connection,
especially for remote
settlements

Low accessibility;
barriers for people with
disabilities and persons
with reduced mobility

Dependence on existing
carriers. Limited ability of
the community to influence
service quality

**Only 5 out of
20 routes are
barrier-free**

OUR SOLUTION — A MUNICIPAL MOBILITY SYSTEM!

1. Modern bus fleet
2. Barrier-free transport
3. Modernized bus stops

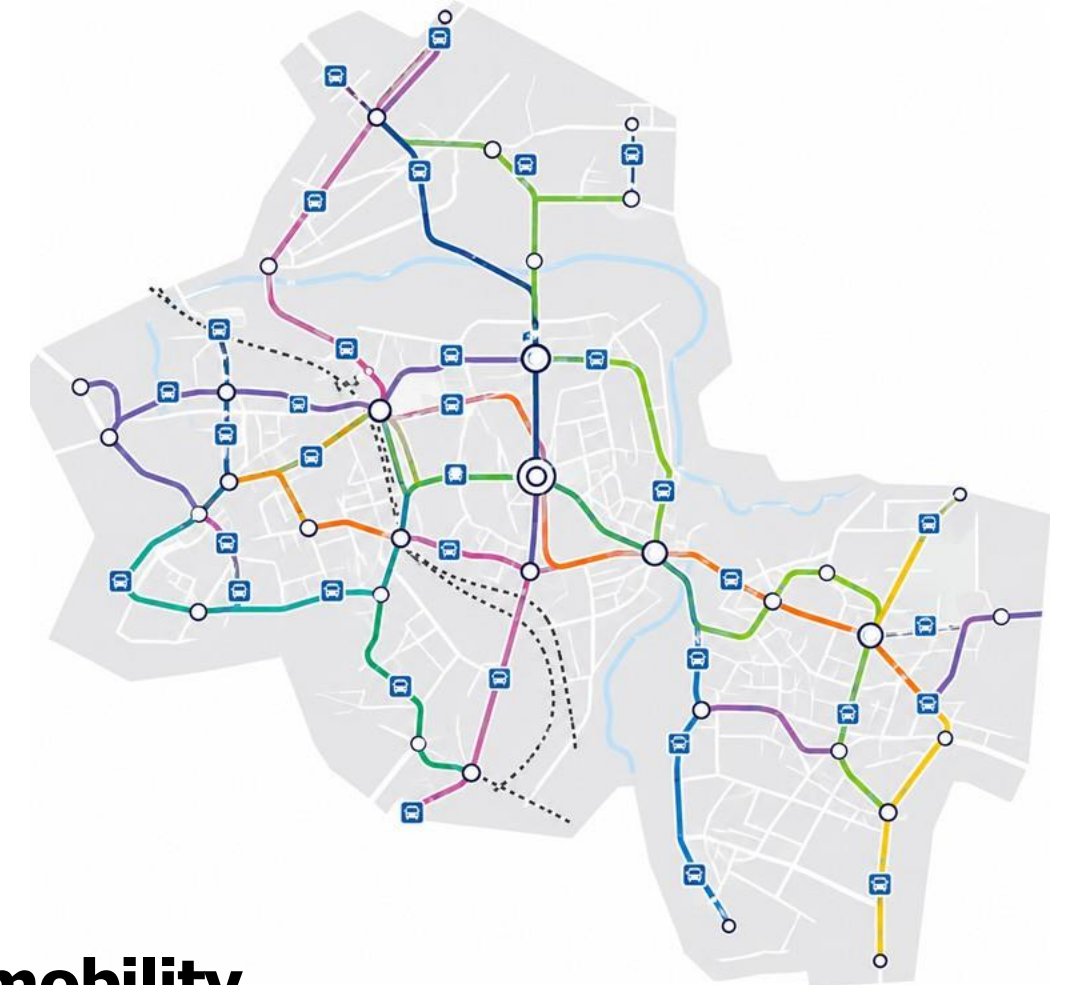

OUR SOLUTION — A MUNICIPAL MOBILITY SYSTEM!

4.Optimized routes and schedules

5.Long-term worker retention and training system based at the Romny Professional College of SNAU

We are not modernizing a single bus—we are creating a system of accessible mobility

Visualization of a modern equipment maintenance and personnel training center at the Romny Professional College of SNAU

Mobility for those who need it most

Accessible mobility = equal access
to education, employment,
healthcare, and social life

How will the project change the life of the community?

Before	After
Frequent vehicle breakdowns	Reliable transport
Only 5 out of 20 available routes	Expanded barrier-free network
Isolation of individual villages	Reliable connection between the city and the villages
Difficult access to services	Better access to hospitals, education, and jobs
Staff shortage	Education and formal employment

FROM THE FIRST BUS TO A SUSTAINABLE SYSTEM

Roadmap

ACCESSIBILITY
AT EVERY STAGE

AN INVESTMENT THAT SPARKS CHANGE

INVESTMENT
UAH 23.3 million

Partnership: MHP-Hromadi
Charitable Foundation,
Government of the Republic of
Korea, KOICA, UNOPS

Donors and agribusiness, the
opportunity to receive equipment
from European cities

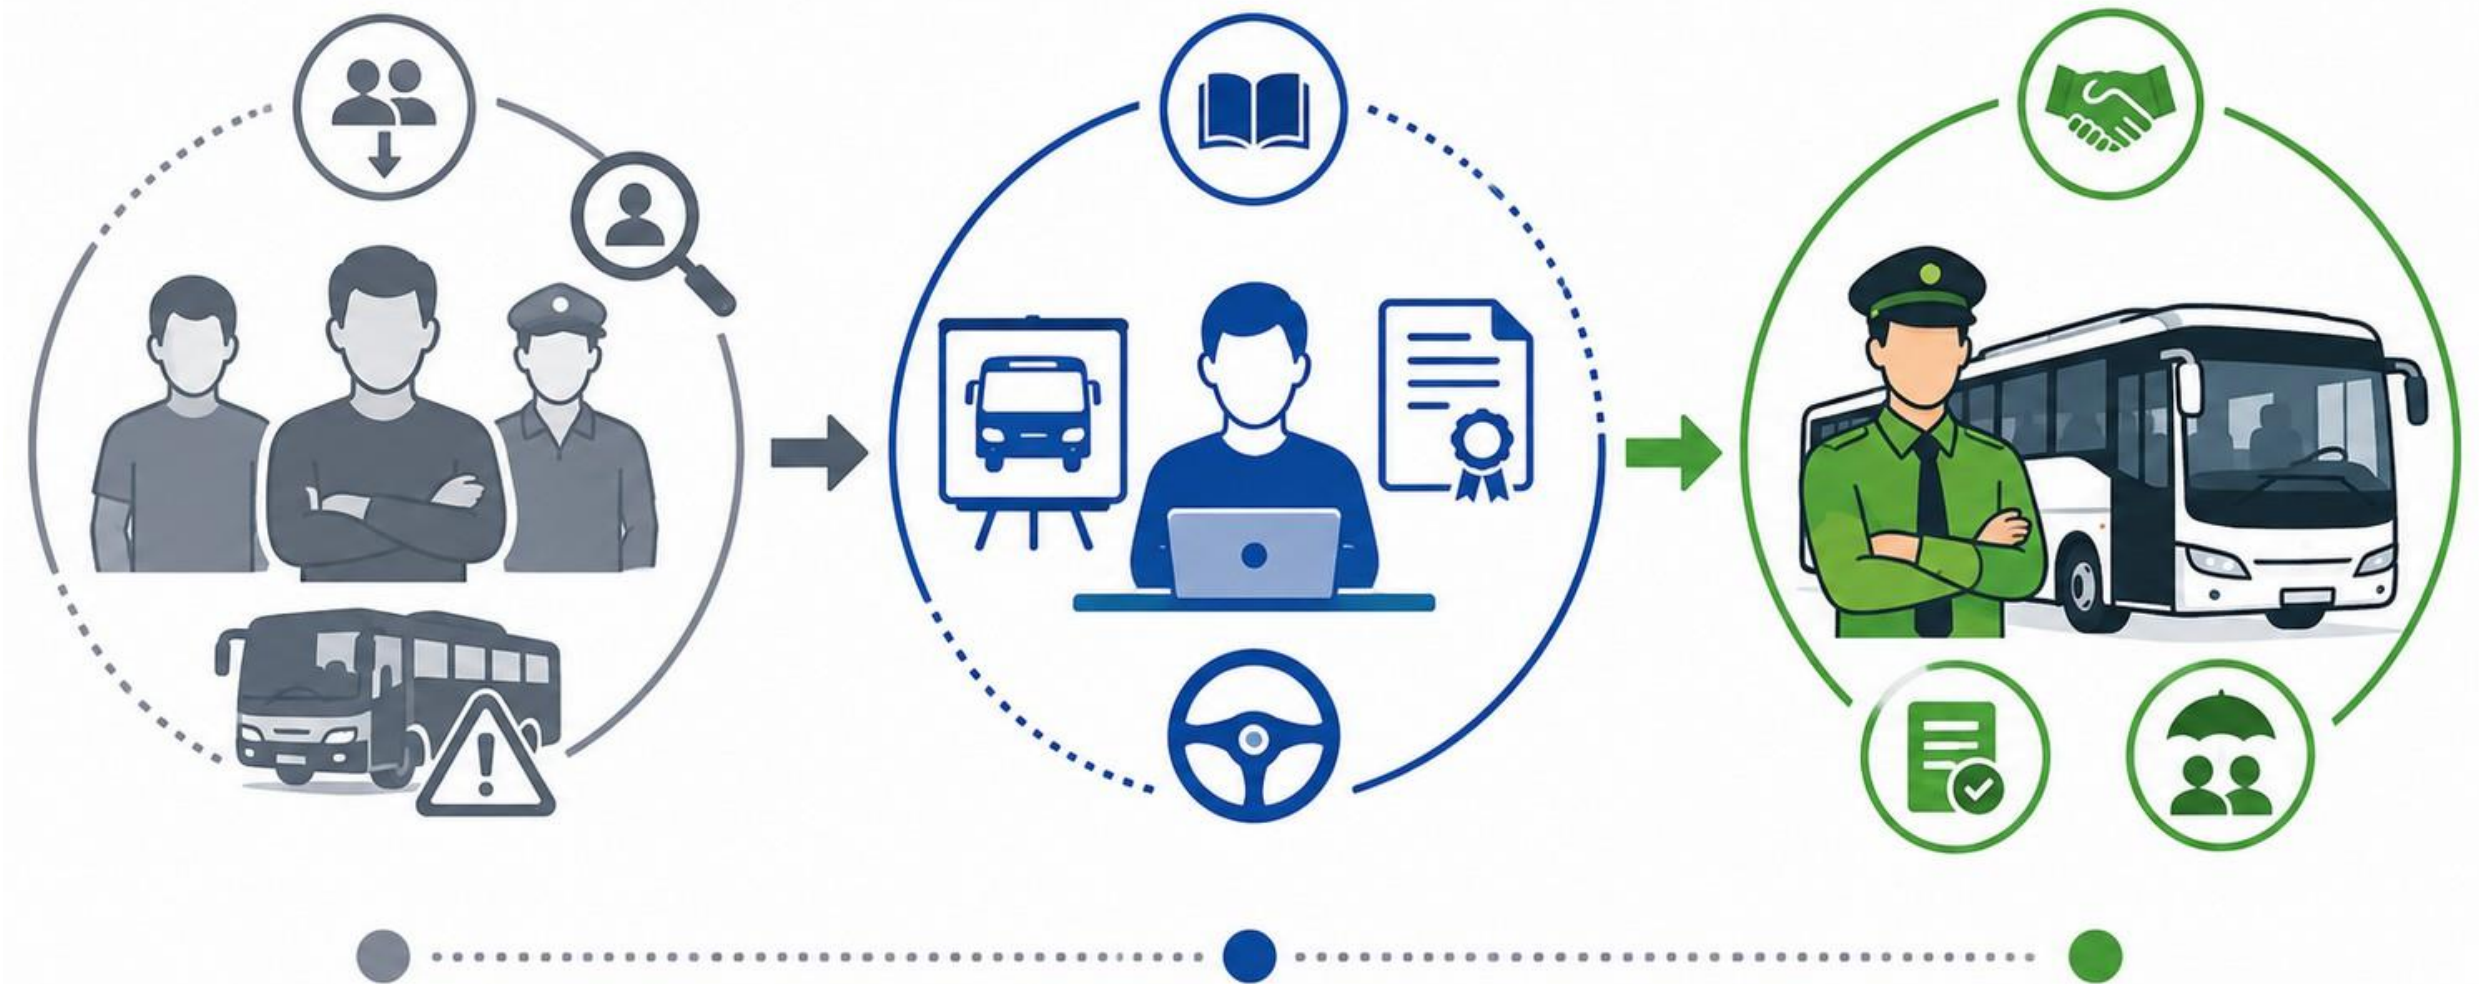

RESULT!

the first step
towards a modern
municipal vehicle
fleet

INVESTMENTS IN TRANSPORT ARE INVESTMENTS IN PEOPLE!!!

Project targets

12 buses
15–20 trained drivers
15+ jobs
100% official
employment

NEW TRANSPORT → NEW COMPETENCIES → NEW JOBS
